To Whom It May Concern:

This letter is in support of the continued efforts of Sharon McCarry on behalf of **Coco's Place**.

The Montreal Fluency Centre has been associated with Coco's Place since it was first established. We have responded to the need for this type of training in the community with collaboration through providing a treatment program that encouraged language development and social communication, which is one of the greatest needs of this population.

A program such as the one proposed by Mrs. McCarry is very much needed in our community and the Montreal Fluency Centre will continue to support this initiative and work with Coco's Place in any way that we can to bring needed services to this exceptional centre.

Sincerely,

Rosalee C. Shenker, Ph.D. CCC-SLP

Founder, Montreal Fluency Centre
